**Fax:** +40213154656

**Email:** [office@snmf.ro](mailto:office@snmf.ro)

**President:** Dr. Rodica Tănăsescu

#### County Report (max 250 words):

During 2012, the Ministry of Health organised courses for health care professionals ahead of the planned start of the National Cervical, Colon and Breast Cancer Screening Programs (NCCBCSP). 84 GP trainers trained approx. 6000 GPs across Romania in 2012. The NCCBCSP began in the last trimester of 2012 and will soon restart after being slightly redesigned in 2013. GPs can opt between only counselling and referring women to ob-gyn or also doing the Pap-smear themselves, depending on technical possibilities.

The e-Learning platform for GPs of SNMF, [www.formaremedicala.ro](http://www.formaremedicala.ro), celebrated two years since its launch. Out of the approx. 12000 GPs in Romania, 7000 are registered on the platform, 3500 GPs have completed at least one online course, with a total of 4000 courses passed with over 80% correct answers.

The Young GPs Group launched in November 2011 reached over 100 members. 7 young GPs participated in one-week Conference Exchanges organised by VdGM member countries. 4 young GPs won various bursaries for participation to the Wonca World Conference and will also participate to the VdGM World Preconference. The first Hippocrates Exchanges will take place in 2013, when 3 young GPs from the UK will visit the host practice of 3 Romanian GP trainers.

For 2014, the Ministry of Health announced plans to introduce new criteria for the payment of Romanian GPs, based on pay-for-performance.

**Dr. Razvan Miftode** was reconfirmed as EURACT Representative for Romania. He is also leading the group of trainers reviewing the GPs Curriculum.

**Please return to Wonca Europe Secretariat before April 30<sup>th</sup>, 2013:**
